PETROS.

Special to the News.

The people are getting along fine here, having plenty of rain, plenty of work and a good meeting which has

continued for three weeks. Work is very good. The mines are running five days a week, or about that, and it is about as much work as some of the men want. The work on the bank building is progressing nicely for they have a good man looking after it, Mr. Chas. Duke. It will be a three-story building and will add a lot

T. J. Bostain and family have moved to Pittsburg, Ga., where he will make his future home and his mother and sister have gone to Whitwell. We wish them good luck. M. E. Basham has been on the sick

list for a few days, but is better. Saturday was Red Men's day here. They had a picnic and had a very good time.

I understand that there is going to be a big tent meeting here at Petros in about two weeks. Hope they will have a good meeting for it is certainly needed here. Hope everybody will attend and all get saved before it is too

I didn't see much in last week's paper from Whitwell. Nip & Tuck and Morning Glory have not had much to say lately. Things must not be suiting them much. May the good people of Whitwell stand firm until the victory is won. I don't think it will belong until you will see old Whitwell in full bloom again, working the union boys, and the people all joining hands and getting along like brothers. May the day come when all strife and hard feelings will be put down and all may go in harmony.

Join the union. Good luck to the union boys at Whitwell and to the Old Reliable News. Union Miner.

THE ATTITUDE OF LABOR.

Editors of the News: Please find enclosed 50 cents to pay for the News another year for J. R. Hackworth, Doans, Tex. We cannot get along

without the News.

It the editor will allow me space I would be glad to say a few words in connection with "Mountain Farmer". We all know and must admit where there is union there is strength, there is happiness, there is prosperity, there is good will one for another. There is no back-biting and no underhanded-ness. But on the other hand, where there is division all sorts of trouble What better times all laboring arise. class of people would have could they unite and come to terms. Then capital would not have such an advantage over the poor man that works for his daily bread. I long to see the day come when farmers, as well as other laboring classes of people, will unite and stop working against each others'

That which will benefit and comfort one laboring man ought to do the same

for his brother laborer. Can labor ever unite? It seems to me that all laboring classes of people ought to think and see what will be for their future wellfare. Speak well for the rising generation. Times are hard now for the laboring class, but I feel that harder times are in the fu-ture, at least unless they work for better times. Ask and you shall re-ceive, seek and you shall find. Is there any promise of receiving unless we seek? If labor was as well united as capital the poor fellow would not have to lick his flint so often and work for wages that hardly furnish bread and a shabby lot of clothes. Will times ever be any better? Not unless the laboring men strive for and protest against capital. Mind you what I say, you never will unless you stick together and contend for your freedom and rights.

But I do say that the company has a right to work either union or non-union men as they see fit, this is their right, but while this is done the laboring man ought to stay away and look out for the wellfare of labor.

I have not written this to get into any controversy. If it is true and good, heed it. If not, throw it aside with other trash and do what is right and will uphold labor and protect the I will close with love and best regards to the News and all readers. JOE HACKWORTH.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally setting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature to do its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any ease that it fails to cure. Send for list of testimonials. Address, F. J.
